

## Messenger College School of Ministry

The School of Ministry is an integral part of Messenger College and its curriculum and policies operate in full accord with the College's program and schedules. Because of this, the studies may be applied to any of the published degree programs where they apply, and all studies qualify for Federal grants and loans. Graduates have the privilege of participating in the annual Commencement together with residency students. The primary difference is that the certificate programs allow one to concentrate in the areas of Theology and Ministry without required classes from the Liberal Arts area. This furnishes a focused approach to concentrated ministry preparation.

The following is considered an essential element for completion of the Messenger College School of Ministry:

1. *Foundational Bible knowledge which contributes to a practical formation of a biblical/evangelical worldview, enabling the graduate to apply biblical truth to contemporary issues.*
2. *Leadership skills and professionalism appropriate to their role and sphere of influence.*
