

DRUG AND ALCOHOL ABUSE PREVENTION PROGRAM

2026-2027

Drug-Free Schools and Communities Act

In compliance with the provisions of the Drug Free Schools and Communities Act Amendments of 1989, Messenger College has adopted and implemented a program to prevent the unlawful possession, use or distribution of illicit drugs and alcohol by students and employees.

Messenger College presents the following information for your knowledge and to promote healthy lifestyles:

- Student and Employee Policies and Codes of Conduct
- Health Risks Associated with Substance Abuse
- Legal Sanctions: Federal and State
- Drug/Alcohol Counseling and Treatment
- Institutional Disciplinary Sanctions

Student and Employee Policies and Conduct

It is the policy of Messenger College to promote a safe, healthy, and productive environment for all students and employees.

Students

Definition: Students: These are individuals who are either currently enrolled or have not withdrawn from the institution.

Illegal Substance (Possession or Use) or Abuse of Legal Drugs:

All students while students at MC and regardless of location, are expected to refrain from the manufacture, possession, use, or distribution of illegal drugs. Purchasing, attempting to purchase, or facilitating the purchase of illegal substances is also prohibited. "Possession" includes illegal substances found on one's person or in their residence or vehicle. Additionally, possession of drug paraphernalia is prohibited. Sanction: [*Probation 2* (minimum), with random drug tests (paid by the student) and other possible sanctions, as well as a substance abuse evaluation prior to readmission. Parents or legal guardians will be notified.]

Alcoholic Beverages (Use, Possession, Purchase or Attempt to Purchase):

All students while students at MC and regardless of location, are expected to refrain from the possession or use of alcoholic beverages. Providing, purchasing, attempting to purchase, or facilitating the purchase of alcoholic beverages is also prohibited. "Use" includes any type of consumption. "Possession" includes alcoholic beverages on one's person or in one's residence or vehicle.

Furthermore, Texas law and the College prohibits the use or possession of an alcohol beverage vaporizer. The College reserves the right to check for compliance with this

alcohol policy using various means and methods, including but not limited to the use of active and passive alcohol sensors.

Alcohol Sanctions : [Probation 2 (minimum), plus possible sanctions.] [Probationary Alert (minimum), Since underage drinking is illegal, the parents or legal guardians of underage drinkers will be notified by an appropriate MC official, and the minimum applicable disciplinary status for underage drinkers or for providers of alcohol to underage drinkers will be Provisional Continuance.

Smoking: Messenger College is a 100% smoke-free environment. Student use of smoking or tobacco products including but not limited to e-cigarettes, vapors, and hookahs are prohibited on the Messenger College campus. Sanction: [*Probation 1 (minimum)*], which may include successful completion of a smoking cessation program at the student's own expense, plus other possible sanctions.]

Tobacco (Use, Possession, Purchase or Attempt to Purchase): All students while students of MC are, regardless of location, expected to refrain from the possession or use of any tobacco products. Purchasing, attempting to purchase, or facilitating the purchase of tobacco products is also prohibited. "Possession" includes tobacco products found on one's person or in one's residence, or vehicle. Sanction: [*Probation 1 (minimum)*] and successful completion of a smoking cessation program at the student's own expense, plus other possible sanctions.]

Bar/Lounge/Club (Attendance or Participation): While a student at MC, attendance at a location or business where alcohol is the primary source of income or alcohol is the focus for advertising is prohibited. Another indicator that a business may be a bar/lounge/club is the requirement of an ID for admission. Sanction: [*Probation 1 (minimum)*], plus a \$50 fine and possible other sanctions]

Health Risks Associated with Substance Abuse

Alcohol

Alcohol is a depressant. Alcohol consumption causes marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, and doing so under the influence increases the likelihood that the driver will be involved in an accident. Moderate to high doses of alcohol causes impairment of higher rational functions and severely alters a person's ability to learn and remember information. Very high doses can cause respiratory distress and death. These effects are dramatically amplified when combined with other depressants and much lower doses of alcohol are required to produce such effects.

Repeated use of alcohol can lead to dependence. Once alcohol dependence develops, the sudden cessation of alcohol use is likely to produce withdrawal symptoms, including but not limited to severe anxiety, tremors, hallucinations, and convulsions. Alcohol withdrawal can be life threatening. Long-term consumption of alcohol when combined with poor nutrition can also lead to permanent damage to vital organs such as the brain and liver.

Mothers who drink alcohol during pregnancy increase the risk of birth defects, spontaneous abortion, and stillbirths. Alcohol abuse often leads to on-the-job accidents and absenteeism.

Controlled Substances

Controlled Substances, Uses and Effects

Drugs		Possible Effects	Possible Overdose Effects	Symptoms of Withdrawal	Duration	Administered
Cannabis	Marijuana (pot/grass)	Euphoria, reduced inhibitions, increased appetite, disorientation	Fatigue, paranoia, possible psychosis	Insomnia, hyperactivity	2-4 hours	Smoked, oral
	Hashish (has) THC					
Stimulants	Cocaine (coke, snow, crack)	Increased alertness, euphoria	Agitation, increase in body temperature, hallucinations convulsions, possible death	Apathy, long periods of sleep, irritability, depression.	1-2 Hours	Snorted, smoked, injected
	Amphetamines	Increased pulse rate and blood pressure, loss of appetite	Shallow respiration, clammy skin, dilated pupils, weak and rapid pulse, coma, possible death	Fatigue, intense sleepiness, increased appetite, twitches and other body movement, slow reaction and movement, aches and pains, agitation, irritability, nightmares, and depression	2-4 Hours	Oral, Injected
Depressants	Barbiturates	Slurred Speech, Disorientation, drunken behavior.	Longer, more intense “trip” episodes, psychosis, possible death.	Anxiety, Insomnia, tremors, delirium, disorientation , convulsions, possible death	3-6 Hours	Oral
	Methaqualone	relaxation, sleepiness and	Respiratory depression,	Restlessness, irritability,	5-8 hours	Oral

		sometimes a feeling of euphoria (happiness, calmness).a drop in blood pressure and slows the pulse rate	slurred speech, headaches, light sensitivity, delirium, convulsion, insomnia, irregular heartbeat, nausea, sweating, tremors	nausea, vomiting, weakness, headache, insomnia, tremors, mental confusion, seizures		
Hallucinogen	LSD (acid, microdot)	Illusions, Hallucinations, poor perception of time and distance.	Sweating, nausea, dilated pupils, rapid heartbeat, dry mouth, tremors, insomnia, blurred vision, raised temperature, weakness, time distortion, hallucinations, anxiety, paranoia, violent actions, suicide, mood swings and self-harm	Withdrawal syndrome not reported.	8-12 Hours	Smoked Oral, Injected
	Phencyclidine (PCP, angel dust)	increased heart rate and blood pressure, shallow breathing, numbness, flushing, sweating, loss of coordination, dizziness, and vomiting. Psychological effects may involve anxiety, paranoia, hallucinations, delusions, psychosis, mood swings, aggression, and violent behavior.	seizures, coma, and death.	anxiety, agitation, increased body temperature, twitching, hallucinations , and seizures	6-24 hours	Oral, snort, smoked

	Amphetamine variants, designer drugs (MDA, MDM, ICC, Crank, Ecstasy)	reduced inhibitions and promotes feeling of euphoria (great happiness, excitement, "high"), feelings of closeness, empathy, and sexuality. Ecstasy can also produce psychedelic effects, similar to the hallucinogens mescaline and LSD.	Abnormal heart rate and rhythm, temperature regulation issues, hyperthermia, high fever, tremors, seizures, irregular heartbeat, loss of consciousness	Fatigue, loss of appetite, depressed feelings, concentration issues	3-6 hours	Oral, snorted, smoked
Narcotics	Heroin (horse, smack) Opium, Morphine	Euphoria, drowsiness, respiratory depression, constricted pupils, nausea	Slow and shallow breathing, clammy skin, convulsions, coma, possible death	Watery eyes, runny nose, yawning chills and sweats, loss of appetite, tremors, cramps, nausea	varies	Oral, Injected, smoke
	Meperidine	Drowsiness, relaxed and calm feeling	Bluish coloring- nails, mouth, skin, lips, palms, change in consciousness, decreased awareness and responsiveness, loss of consciousness	sweating, muscle aches, nausea, and vomiting	2-4 hours	Oral, injected
Alcohol	Is a depressant that in small amounts produces a short-term "lift" which tends to relax inhibitions, increase sociability and decrease judgment and perception. In larger amounts, it increases depression and anxiety, resulting in confusion or stupor. Death can result due to respiratory paralysis.					
Anabolic Steroids	When combined with exercise, produce a marked increase in strength and muscle mass. Extended use will lead to kidney and liver dysfunction, sterility, and cardiac disease. Recent research indicates steroids are addictive.

Student and Employee Drug/Alcohol Counseling and Treatment

Students

The staff and faculty are always available to help students who seek assistance. Students and staff may be referred to additional counseling by the campus staff or faculty. Our partnering agency is Compassion Counseling.

Employees

Employees who need assistance with alcohol and other drug problems should contact their personnel manager for support and to develop a plan of action. Employees who do so may be required to participate in a substance abuse rehabilitation or treatment program as part of the plan of action. Additionally, referral to a rehabilitation or treatment program by the employee's supervisor could be a part of the action plan or a disciplinary sanction/performance improvement plan.

Institutional Disciplinary Sanctions/College Sanctions (Students)

Consequences for violations of Messenger College Community Standards fall into two categories: status and sanctions. "Status" refers to the disciplinary classification assigned to the student, e.g., Probation or Suspension. (Note: status may be escalated in the case of repeat violations or multiple violations.) "Sanctions" refer to the various corrective and restorative measures that may be required by the College.

Conduct Status:

- Official Warning is usually given for a first offense of a violation of community standards where personal judgment is involved. An Official Warning is usually issued by the conduct committee as a means to remind students of standards and is used as a teaching tool. These warnings are verbal; however, a written record of the warning will be placed in the student's file.
- Probation 1 is a written warning noting that further violations of Messenger College policies will result in a minimum of being placed on Probation 2 status. The duration of Probation 1 is four (4) weeks and will be followed by at least eight (8) weeks on a lower status. Students on Probation 1 status:

- Will receive a \$100 fine that will be added to his/her student account (campus/community restitution will not be an option).
 - Will receive additional sanctions and/or restrictions, which may extend from four to sixteen weeks.
- Probation 2 is a written warning noting that further violation of Messenger College policies and/or community standards will result in being placed on Probation 3 status and may result in suspension or dismissal from the college. Additional sanctions may also be applied. The duration of Probation 2 is eight (8) weeks and will be followed by at least eight (8) weeks of a lower status at the discretion of the College. Students on Probation 2 status:
 - May not represent the college in any official capacity, including ministry teams and performance groups.
 - Will receive a \$250 fine that will be added to his/her student account (campus / community restitution will not be an option).
 - The parents of dependent students will be notified by the Director of Student Development.
- Probation 3 is a written warning noting that further violation of any campus policies and/or community standards will result in suspension or dismissal from the college. This status is usually reserved for more serious disciplinary actions or applied as a result of a cluster of inappropriate behaviors. The duration Probation 3 is sixteen (16) weeks, followed by at least sixteen (16) weeks on a lesser status. Students on Probation 3 status:
 - Are not allowed to represent the College in any official capacity, including ministry teams and performance groups.
 - Will receive a \$500 fine that will be added to his/her student account (campus/community restitution will not be an option).
 - The parents of dependent students will be notified by the Director of Student Development.
- Withdrawal: A student may be permitted to withdraw from the college in lieu of discipline. Should a student choose this option, they may not return without the express permission of the President's Cabinet, and the cabinet can insist that they return under the same status and with the same sanctions they would have received had they not withdrawn. The Director of Student Development will notify parents of dependent students if a dependent student withdraws in this manner. If withdrawal occurs before the end of the term, academic work is forfeited. The standard institutional policies, published in the Messenger College Catalog, will be applied for any applicable refund of tuition, fees and room and board.
 - In a conduct situation in which a student chooses to withdraw from the College prior to his/her student conduct hearing, that student must immediately submit to a conduct committee hearing upon being readmitted. Failure to do so will result in a conduct committee hold being placed upon the student's readmission file.
 - When a student displays signs of mental disorder indicating the student may be a threat to harm himself/herself or others, the student's withdrawal from the college may be initiated by college administration.
- Suspension: Suspension refers to involuntary, complete separation of the student from the College for a specified length of time, which may include the current semester and/or the following semester(s) (Immediate/Delayed). Suspension is typically for the duration of

one semester, which is sixteen weeks, followed by one semester of sixteen weeks of Probation 2 status upon approved re-admission. Parents of dependent students will be notified by the Director Student Development when they are suspended. If Suspension occurs before the end of the term, academic work is forfeited. The student will receive a “W” in their enrolled but not completed courses. The standard institutional policies will be applied for the refund of tuition and fees. Suspended students are not allowed to be on College property or in attendance at College-sponsored events until they are either officially readmitted as students or have received written permission from the President’s Cabinet. Those violating this provision may be charged with trespassing.

- **Dismissal:** Dismissal means that the student is permanently separated from the college. Appropriate documentation outlining the dismissal will be placed in the student’s file. If dismissal occurs before the end of the term, all academic work is forfeited according to the MC withdraw policy. The standard institutional policies will be applied for the refund of tuition, fees and room and board. Dismissed students are not allowed to be on College property or to attend College-sponsored events. Those violating this provision may be charged with trespassing.

Conduct Sanctions:

- **Alcohol/Drug Assessment and Treatment Programs:** Consequences for the use of illegal drugs and/or alcohol may include mandatory participation (at the student’s own expense) in programs for assessment, treatment and rehabilitation. Parents or legal guardians of underage students will be notified by Director of Student Development of any alcohol and/or illegal substances conduct violations.
- **Community Service/Campus Restitution:** This sanction can be a stand-alone sanction or applied in combination with other consequences. The hours of service must be carried out as approved by the conduct committee.
- **Counseling:** The conduct committee may require a Christian counseling assessment and regular counseling sessions at the student’s expenses as part of disciplinary sanctions. The selected counselor must be approved by the Director of Student Development, and all sessions must be documented in writing in order to comply with the required sanction.
- **Drug Screen:** Students who violate the college’s illegal substance policy may be subject to repeated, supervised, random drug tests at a medical facility. The student will be solely responsible for the costs of the drug screenings. A failed drug screening may subject the student to additional disciplinary actions
- **Fines:** Appropriate fines may be determined by the conduct committee. Fines must be paid by the appointed due date. If payment is not paid in full by the appointed time, then an additional violation—“Failure to Comply with Sanctions”—will be added.
- **Research and Writing Assignments:** To assist in the student’s rehabilitation and restoration, the student may be required to read relevant books and/or conduct research into the literature related to the student’s violation and/or the potential legal, spiritual and ethical consequences of the violation. These assignments may require written and/or oral reports.
- **Substance Abuse Assessment:** This is a professional assessment of the extent of, and underlying issues related to, the student’s use of alcohol, tobacco or illegal substances. The assessment must be conducted by a Christian licensed professional counselor and the

results must be reported to the Director of Student Development. The cost of the assessment is the responsibility of the student. The student must agree to comply with the recommended treatment plan, which could include additional counseling, treatment, or other consequences. All costs associated with that treatment will be paid by the student.

- **Mentoring:** A student may be required to participate in mentoring with a faculty or staff member. Typically, there is an expectation of a weekly one-hour meeting. The student's progress will be documented in a mentoring report completed by the faculty or staff mentor and will be submitted to the Director of Student Development.

Employees

Messenger College desires to provide a drug-free, healthy, and safe workplace. To promote this goal, employees are required to report to work in mental and physical conditions that allow them to perform their jobs in a satisfactory manner.

While on the Messenger College property and while conducting all MC business-related activities, no employee may use, possess, distribute, sell, or be under the influence of alcohol or engage in the unlawful manufacture, distribution, dispensation, possession, or use of illegal drugs.

Employee use of legally prescribed drugs is permitted in the Messenger College workplace and while conducting all MC business-related activities only if it does not impair an employee's ability to effectively perform the essential functions of his/her job and only if such use can be done in a safe manner that does not endanger other individuals in the workplace.

Under the Drug-Free Workplace Act, an employee who performs work for a government contract or grant must notify Messenger College of a criminal conviction for drug-related activity occurring in the workplace. The report must be made within five days of the conviction.

Employees with questions regarding this policy or issues related to drug or alcohol use in the workplace should raise their concerns with their supervisor or the Personnel Manager without fear of reprisal.

Employees who violate this policy are subject to disciplinary action as outlined in the employee and faculty handbooks and may be required to participate in a substance abuse rehabilitation or treatment program. Additionally, employees could face written reprimand, being placed on a performance improvement plan, being placed on leave, suspension, or termination.

Any employee with a chemical dependency problem who admits the problem to their supervisor or the College's personnel manager may be afforded the opportunity for treatment and may be considered for reinstatement upon successful completion of a chemical dependency rehabilitation program. However, such a process is not guaranteed and is at the discretion of Messenger College.

Campus Partners in AOD Policy, Enforcement and Compliance Efforts

The Student Development Department plays a key role in enforcing the alcohol and illegal drugs policy, as well as providing alcohol and drug awareness education and support efforts to the entire campus community.

The Office of Student Development

The Office of Student Development provides information on all Messenger College policies to resident students during the mandatory welcome orientations held at the beginning of each academic year.

- The Drug and Alcohol Abuse Prevention Program (DAAPP) is emailed to all staff and students each semester. Students are informed of the policies and handbook standards each semester such as the sexual misconduct policies, annual security report, and the annual fire report.
